Change Information:

Date	Version	Resp.	Comment
25.11.16	1.0	MTO	Initial Setup
18.08.2017	2.0	MTO	Update of fixed issues

1 Preface

This document contains all fixed bugs in a new released version of the iPad App [2]. Initially the fixes have been listed in Lotus Notes per release. This is now moved into this document.

2 Feedback of further bugs

Please send a short notice of detected problems to the maintainer [3] in order to get it solved.

3 Fixed Bugs

The following list shows the fixed bugs compared to the last version. Full details are available in the Test List [5]

Reference	Short Description	Feature
#31	PG19_1	Eliminated Product Group for PEM with CBE due to single presentation on Web
